

## Technical Data Sheet

### Rytons DamRyt® Rytweep® Protector

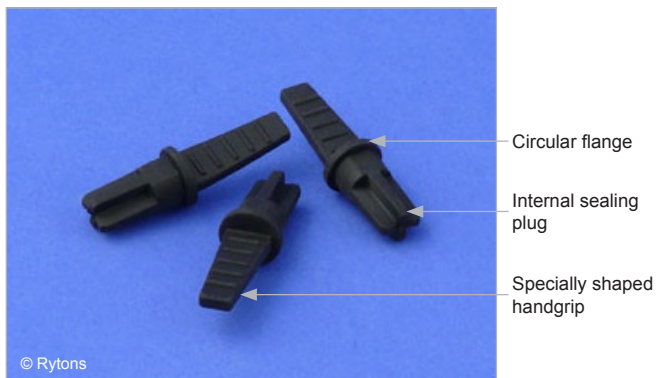

A simple plug for Rytons Rytweep® to protect the outlet from blockage during rendering or water penetration during flooding.

#### Dimensional Drawing

#### Component Details

#### Product Benefits

- Render and flood protector for Rytons Rytweep®.
- Fit before rendering to prevent the outlet becoming blocked.
- Alleviates the time consuming task of finding and cleaning out weeps later.
- Prepare for flooding by fitting when on flood alert. Minimises much of the damage caused by flood water entering through the cavity.
- Quick and simple to fit with no fixing tools necessary.
- Flange aids correct positioning and helps prevent seepage.
- Specially shaped handgrip helps achieve a tight fit on installation and easy removal after use.
- Made from durable material for use time and time again.
- Tell your insurer you have Rytweep® flood protectors – it could help your premium.

#### Product Specification Code

Rytons DAMWEEP

#### Size

35mm L (15mm L Plug with 18.5mm L Handgrip) x 10mm Dia. Flange.  
AutoCAD drawing available by email.

#### Colours

Black.

#### Composition

Thermoplastic rubber.

#### Specification Paragraph

Manufacturer: Rytons Building Products Ltd

#### Installation

With the handgrip in a vertical position firmly push the plug end into the Rytweep® aperture until the round flange is tight against the edge.

**Rendering:** As the render starts to set carefully remove all DamRyt® Rytweep® Protectors, wipe clean and store for future use.

**Flood Protection:** Once flood water has receded remove all DamRyt® Rytweep® Protectors, wipe clean and store for future use.

#### Handling Information

Quantity available to requirements. Weight: 1gm each.

#### Flood Protection: Important Note

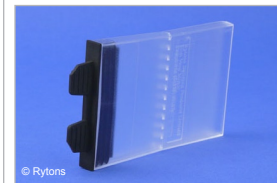

As there are always a large number of potential access points around a structure, and over time bricks will allow water to permeate, it is not possible to guarantee that no water will get through. However Rytons DamRyt® Rytweep® Protector when fitted correctly, will minimise water penetration through low level Rytweep® weep hole ducts.
