## Technical Data Sheet

### Rytons Louvre Ventilator '7x7'

#### Other Sizes and Styles Available

#### Installation

Position over opening and fasten into place.

#### Extra Features and Benefits

Compatible with Rytons '7x7' Louvre Backplate (LVBACK150) for 150mm (6") ducting.

#### UK Regulations, Standards and Guidelines

**For heat producing appliances (including solid fuel) refer to:**

The Building Regulations 2000, Approved Document J.

The Building (Scotland) Regulations 2004, Mandatory Standard 3.21.

The Building Regulations (Northern Ireland) 2000, Technical Booklet L.

British Standard BS 5440-2:2000.

**For decorative fuel effect gas fires refer to:**

British Standard BS 5871-3:2005.

#### Important Note

Rytons Flyscreened Louvre Ventilator (LV74F) may not be used to ventilate a heat producing appliance because it incorporates a flyscreen.

#### Handling Information

Weight: 0.076kg each.

## Questions

#### Can the vent be painted?

Yes, with an acrylic or enamel based paint although we recommend a test area be carried out first.

#### Is colour matching available?

This product is available to order in non-standard colours, choosing from either a Rytons colour or supplying a RAL number. For further information ask about Rytons Colour Matching service.

#### Why is the vent larger than 7" x 7"?

The description '7x7' is a nominal size with the vent larger to cover any damage to the surrounding area.

Please recycle printouts where facilities exist.
