Handling Information

Box quantities: 25 number.

Box weights: LV96ALUM 1.75kg, LV96BAA 1.75kg, LV96BRAS 7.75kg.

Questions

Are aluminium louvre vents suitable for external use in a marine environment?

Aluminium is not suitable for use in a marine environment. Grade 3/6 stainless steel is a better option.

Can I point the louvres backwards for a flush finish?

Yes, all Rytons metal Louvre Ventilators are surface mounted so can be fitted with louvres facing forwards as standard or backwards for a flush finish.

Are there any other sizes and finishes available?

Contact our sales office for up to date details of non-standard sizes and finishes.

Please recycle printouts where facilities exist.
