Rytons Power Coating Statement

All powder coatings used by Rytons are A2-s1, d0 rated, unless specified otherwise.

- Combustibility: A2 (limited combustibility).
- Smoke emission: s1 (little or no smoke).
- Release of flaming droplets or particles: d0 (none).

Thickness: 60-80 microns.

Individual RAL colour power coating specification sheets are available on request. Please email anthony.irwin@rytons.com with your order number and the RAL colour for which you require technical details.

All information given is in good faith and to the best of our knowledge is true and accurate, however, no guarantee regarding its accuracy is given, nor should Rytons representatives or agents imply any such guarantee. Customers should satisfy themselves that the products are suitable for the intended purpose.
