

RAL K7 Classic Colour Chart

RAL Classic is a widely recognised colour system used across the manufacturing, construction and design industries to specify colours accurately and consistently.

Rytons A1® metal products can be powder coated in any of the RAL Classic colours shown in the K7 colour chart on the following pages, giving you a wide choice of colours to suit your project. Colours are subject to the required powder being available at the time of order.

For projects requiring a specific or non-standard finish, we also offer signature architectural coatings, using our premium colour matching service.

Please note: Colours displayed on screen or reproduced in printed documents may vary from the actual RAL colour due to differences in monitors, screen settings, printing processes and lighting conditions.

For the most accurate colour selection, a RAL K7 Classic colour chart or official RAL digital colour reference should be used.

V1:23 September 2026

RAL K7	RAL 1001 beige	RAL 1002 sand yellow	RAL 1003 signal yellow	RAL 1004 golden yellow	RAL 1005 honey yellow
