CE Marking for the EU

CE Marking on a product is a manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety, and environmental protection legislation, but it is not a quality mark and does not necessarily mean that the product will be suitable for all end users in all Member States.

The Construction Products Regulation July 2013 came into force from 01/07/13 and is mandatory and legally binding on all Manufacturers, Importers & Distributors of all Construction Products covered by Harmonised European Standards (hENs) or conforming to a European Technical Assessment (ETA).

Rytons products do not come under the hENs or have ETAs. Consequently, Rytons products are not, and are not obliged to be, CE marked.
